

We are an important producer of XY products which we deliver to our customers from the Czech Republic, from Europe and from all over the world. We would like to offer high value products to our customers in the future.

The TOP management is aware of growing customer requirements for delivering products in the required quality, agreed time, quantity and for competitive prices. To fulfill these requirements, we have implemented a quality management system and the TOP management of our company declares this

# QUALITY POLICY

which is implemented through the following principles:

## **Customers**

- To build long-term mutually beneficial partnerships with customers
- To deliver ordered quantities in ordered quality and agreed terms

## **Suppliers**

- To build long-term mutually beneficial partnerships with suppliers
- To carry out transparent selective procedures

## **Employees**

- To support employee development to high quality of work
- To protect employees health and prevent accidents by effective prevention

## **Technology and infrastructure**

- To be active in implementation of new technologies which will be a benefit for both customers and our company
- To optimize logistics flows of materials and products in the organization

## **Environment**

- To be active in cooperation with state authorities and local authorities around our company
- To participate in the sponsorship of publicly beneficial activities around our company
- To reduce the risks of damage to the environment.

## **The company management undertakes:**

- To keep these above-mentioned principles
- To follow legal regulations and other related documents
- To continually improve quality management system.
